## About Katherine

Katherine is a recognised international keynote speaker around diversity, as well as a broad range of issues, and can bring real meaning to how they impact corporate businesses. She excels in environments that are fast paced and promote good core values, diversity, inclusivity, and a positive culture. Katherine has worked with several organisations that have a transformation agenda with a focus on innovation, enabling her to deliver results for an organisation, its people and customers.

In 2017, Katherine launched "The Diversity Shift", a public speaking and mentoring company. The sole aim of The Diversity Shift is to shift the conversation around diversity from tolerance to acceptance. Katherine is an active member of the Trans community since transitioning over 30 years, and she has used her standing in the corporate world to influence, effect change and continue the focus of equality in the workplace.

Katherine has spoken at large corporate and government bodies such as Beyond Bank, TikTok, Charter Hall and APRA to better understand what it is like to be Trans in the Corporate environment.

Between 2018-2021, Katherine was elected to be President of the Sydney Gay and Lesbian Business Association, which is Australia's oldest LGBTQI+ business networking group. She was the first Trans person to be President of the organisation since its conception.

## Speaking Topics

- How to become a better LGBTQI+ ally
- How to make your workplace more inclusive
- Why is it important to have a Diverse Workforce
